Challenge Statement

AI is improving quickly, but many enterprise AI projects fail to create real business value. This is not because the technology isn't powerful, but because it lacks business context, proper controls, and safe ways to operate within enterprise systems.

MCP (Model Context Protocol) provides a standard way for AI to securely discover enterprise tools and data. But a trusted, enterprise-grade MCP can do so much more.

Your mission is to design and demonstrate an **AI orchestration workflow powered by MCP**. Build your solution to drive productivity and improve experience. Explain the potential business value in your submission.

You will get:

Access to Workato Developer Sandbox Account

Pre-built MCP servers to popular apps (Gmail, Notion, Asana)

Freedom to define your own use case and demonstrate real value

Access to AI industry experts as mentors

Deliverables

- Working prototype / demo that demonstrates how MCP can deliver real value
- A short demo video (2-4 mins) showing:
  - Problem
  - How MCP connects systems
  - Impact
- Presentation deck (8 slides max):
  - Workflows and integrations
  - Benefits and metrics
  - Potential impact

All submissions must be sent to
submissions-naisc@workato.com

Email subject should be titled as
"NAISC Workato Challenge Idea Submission: [Team Name] or "NAISC Workato Challenge Idea Submission: [Your Name]"

Key Milestones

Mentoring sessions @ Workato Office/ Virtual	Deadline for submissions	Finalists notified via email	Finalists pitch to judges & winners announced
END MAR-EARLY APR	24 APR	30 APR	EARLY MAY

What's at Stake

PRIZES

Eligible teams will receive direct mentorship by Workato's in-house AI experts

Top 3 winning teams will get a trophy, medals and cash prizes

How to submit your ideas

1. Please submit your ideas to this email address: **submissions-naisc@workato.com**. Please ensure that the subject title is as such: *NAISC Workato Challenge Idea Submission: [Team Name]* or *NAISC Workato Challenge Idea Submission: [Your Name].*

2. You are strongly encouraged to submit a link to your pitch deck or video, with public or viewing access enabled, as this ensures smoother access and review. Please also name your file as per the following: *FirstNameLastName_SubmissionDate_TeamName(ifany)*.

For slide decks: Share a Google Slide link or host your pptx or pdf deck on any file-sharing platform like Google Drive, OneDrive, Dropbox or iCloud. If you instead choose to attach the file directly to your email, please keep it within 20 MB.

For videos: Upload your video to a platform like YouTube, Vimeo, or any file-sharing service and provide a private or shareable link. Videos are a great way to showcase your talent but do keep it within 4 minutes. Any footage after the 4 min mark will not be judged.

4. After submission, you will receive a confirmation email that we have received your idea submission. Due to the expected volume of submissions, please give us up to 2 working days to get back to you.

The deadline for submission is 24 April, Friday, 23:59 SGT. We encourage you to submit your ideas early, as that will give our judges more time to consider your proposal in full.

Thank You!
